

Accountant

Finance, invoice, client, payment, activity, and reporting access.

Finance Access

Accountants can review the financial side of the workspace without managing queue operations or user settings. This role is for bookkeeping, invoice review, payment review, client balance review, and reports.

invoices.

- Record payments and review batch payment history.

s, or workspace settings unless asked.

- Keep customer financial information private.

2. Use Invoices for current invoice status, draft balances, aging, and documents ready for payment.

3. Use P

2. Select the invoices paid by the same check.

3. Confir

etrics.

2. Use Activity to confirm who created or changed important records.

3. If a nu
anything

Workspace reminder: Trimax supports more than one business. Always confirm you are working in the correct workspace before creating queue items, estimates, invoices, services, payments, or reports.
